GLOSSARY

The definitions of the terms that follow are the particular interpretations used in the document and are included to enable a clearer understanding of that data.

AMPHITHEATRE PRESENTATION: Formal public presentation by Parks' staff and/or special guests, using amphitheatre structure, usually involving the use of audio-visual materials.

BARBECUE PIT: A structure specifically designed for a fire, usually for cooking.

BOAT RAMP: Access to water, approximately 3.6 metres wide, used for launching boats.

CAMPER: Any vehicle that is modified to provide living accommodation, such as a Volkswagon Westphalia or similar unit.

CAMPER TRUCK: Slide-in unit that is fully equipped for camping.

CAMPFIRE TALK: Informal evening presentation near a campground.

CAMPING TRAILER: House trailer, travel trailer or a 5th-wheel trailer that provides temporary living accommodation.

DIAL-A-SITE: A phone-in service for reservation of campsites in designated campgrounds for a minimum stay of 5 consecutive days and a maximum stay of 21 days--unless otherwise specified.

DOCK: A platform used for mooring boats.

ELECTRICAL CAMPSITE: A designated campsite where an electrical supply is available.

EXTENSION PROGRAM: Contact with the public outside the park when information about the park and/or activities is presented.

FLUSH TOILET: A water-closet where the discharges are carried off by water. (Note: urinals are not included in this definition.)

FULLY SERVICED CAMPSITE: A designated campsite where an electrical supply, sewerage and running water are available.

GUIDED WALKS/TOURS: A tour or a walk given by a guide.

HIGHEST OVERFLOW DAY: The date on which the campground accommodated the largest number of campers in the overflow area.

HIKING TRAIL: A designated path for hiking.

KITCHEN SHELTER: A roofed open-sided structure equipped with facilities for cooking.

LAUNDRY: A building or a designated place within a building with facilities for washing clothes. (Note: For the purpose of this definition a laundry must be within 0.8 kilometres of a campground.)

NON-MODERN TOILET: A closet in a washroom building not provided with sewerage and running water.

NON-SEASONAL PERMIT: Authorization which allows a camper to occupy a campsite for a day or a few days.

OTHER: (In Equipment Type by Percentage) Truck with a pick-up cap, also a van that is not equipped with temporary living accommodation.

OTHER: (In Park Interpretation) Includes interpreter-led activities such as children's programs, bus tours, Scout and Guide presentations.

OVERFLOW AREA: A designated unserviced camping area used only when the normal campground is full.

PERCENTAGE ERROR IN FIELD DATA: The percentage difference between total unit days sold as reported by field staff and total unit days sold as reported by Administrative Services. (Note: This enables a fair judgement to be made on the monthly data reported by field staff.)

PLAYGROUND: An area with some basic recreational equipment set aside specifically for physical activities of children of all ages.

RAIN SHELTER: A roofed open-sided structure not equipped with facilities for cooking but usually equipped with picnic tables. Also known as a picnic shelter.

RECREATIONAL FACILITIES: Those services operated and maintained by the Provincial Government for the benefit of and use by the public. (Note: Such facilities may not necessarily be within the boundaries of the particular provincial recreation area itself but which nevertheless must serve that area.)

RENEWAL: An additional permit purchased by a camper who decides to stay longer than indicated on his original permit.

ROVING: Casual contacts made by Visitor Services' staff in campgrounds, day-use areas, and at points of interest when park visitors' questions are answered and programs are promoted.

SCHOOL PROGRAM: Organized communication between Visitor Services' staff and school groups in a park.

SEASONAL PERMIT: Authorization to occupy the same campsite for the full designated camping season.

SELF-GUIDING TRAIL: A path for pedestrians where points of interest are clearly identified on site with signage and/or are described in complementary literature.

SHOWERS: The total number of shower heads in a particular building.

SPECIAL EVENTS: Irregularly scheduled and conducted public presentations or programs such as Bannock Bakes, Fish Fries, Open House, and temporary exhibits.

STORE: A commercial establishment that supplies campers with provisions. (Note: For the purpose of this definition the store must be within 0.8 kilometres of a campground. (Concessions are not taken into account in this definition.)

TEACHER-IN-SERVICE: Communication between Visitor Services' staff and teachers in a park.

UNIT DAY: One campsite occupied for one night.

UNIT DAYS OVER CAPACITY: The number of unit days sold for an overflow area.

UNSERVICED CAMPSITE: A designated campsite not provided with electricity, sewerage or water.

VISITOR CENTRE: Building or buildings in which information and orientation are provided to visitors by means of publications, displays, exhibits, etc., and/or through direct contact with a member of the staff.

INTRODUCTION

The development, operation and maintenance of parks and campgrounds are dynamic processes requiring continuous decision-making by individuals, planners, Provincial and Federal Governments and their agencies.

The making of pertinent decisions that mesh with the particular needs within a park or campground and are in harmony with regional developmental objectives is very critical. This process involves all levels of planning.

Basic to making pertinent decisions is the availability of adequate and accurate information. Essential also is the ability of decision-makers to analyse the figures and assess the facts before designing projects and preparing programs.

This document's format has been designed to allow for easy analysis of the data. Tables herein are arranged in four major categories in each regional subdivision section: Recreational Facilities, Attendance Statistics, Visitor Services Statistics, and Campground Statistics.

The category on Recreational Facilities provides a quick look at each individual campground and an overview of the recreational facilities of that particular region.

The Attendance Statistics are traffic counts by gate for that particular region, and comparative attendance, park entrance permits and revenue figures for the past four years.

The Visitor Services Statistics indicate the types of programs provided and the estimated

contacts with the public through services and facilities.

The Campground Statistics consist of tables compiled from information on the camping permits sold by each campground, and a set of occupancy rates based on the data collected from the various campgrounds. The percentage occupancy was calculated on the number of sites available, excluding the seasonal sites and the overflow area, using the total number of operating days established.

This is the twentieth year of publication of this document. Due to the availability of more reliable data now some of the figures for comparative years may be inconsistent with that in previous publications. The latest figures published should be used as better sources of information have been made available since the last publication. Since the first publication the boundaries of the regions which form the sections of this manual have changed many times, and the shifting of regional responsibility for campgrounds has also occurred. It is therefore not possible to compare regional totals from publication to publication. However, it is possible to compare the Provincial totals.

The need still exists for more reliable information to make this document a more useful source, but each year it becomes more complete and precise. This document is unique in terms of the detail of data and style of its presentation. It is expected to make a significant contribution towards the development of parks and campgrounds in the Province.

Whitefish Lake	14,043*	11,702*	13,406*	14,430*	+ 7.7%
TOTAL	105,368	105,646	110,354	121,785	+210.7% ²
¹ CAUTION: In many instances large increases or decreases are attributable to: (1) current counts with counters in areas where counts were previously estimated; (2) malfunctioning traffic counters; or (3) parks or waysides closed for part of the season.					
² Excluding Margaret Bruce in percentage change. We assume the large increase in this region was due to traffic avoiding the northern region because of forest fires.
